- 99** Editorial
- 101** In memoriam prof. Jože Černelč
- 103** In memoriam prof. emer. dr. sc. Ante Šantić
- 105** What can Systems and Control Theory do for Agricultural Science?  
*original scientific paper*
- 119** Modelling Dust Emission from Fattening Pig House  
*original scientific paper*
- 127** An Investigation of Automatic Treatment of Seeds with Low Power Laser Beam  
*original scientific paper*
- 135** Optimal Control and Filtering of Weakly Coupled Linear Discrete-Time Stochastic Systems by the Eigenvector Approach  
*original scientific paper*
- 143** Metallic EBG Sectoral Antennas with different Polarizations  
*original scientific paper*
- 151** Model-based Production Control  
*original scientific paper*
- 159** Low-Sensitivity, Single-Amplifier, Active-RC Allpole Filters Using Tables  
*original scientific paper*
- 175** Low Cost High Efficiency Unipolar Converter for Permanent Magnet Synchronous Motors  
*professional paper*
- 181** Comments and Opinions
- 185** Meetings and Events
- 193** Our Authors
