Vol. 56(2024) No.2 (187-358)

Contents

Kateřina Jenčíková, Mario Kasović, Martin Zvonar

*(Original scientific paper)***The effects of a school bag load carriage on gait kinematics in children: a school – based study 189-197**

Benjamin M. Southey, Mark J. Connick, Dirk R. Spits, Damien J. Austin, Emma M. Beckman

*(Original scientific paper)***A reliability and kinetic analysis of the 10/5 repeated jump and drop jump test to determine the use of a novell reactive strenght measure: the reactive quality ratio 198-204**

Zhigang Yang, Lina Wang

*(Original scientific paper)***Relationship between pitch velocity and physical fitness in elite baseball pitchers 205-213**

Danica Janicijevic, Jesualdo Cuevas-Aburto, Zhaoqian Li, Amador García-Ramos

*(Original scientific paper)***Resistance training carried out before practice compromises the performance of several high-velocity tasks in soccer goalkeepers 214-223**

Elena Milenković, Josipa Radaš, Lucija Milčić

*(Original scientific paper)***Is there a difference between rhythmic and artistic gymnasts in active and passive flexibility of the lower limbs? 224-237**

Eric Mosier, Andrew Fry, Justin Nicoll, Stephanie Sontag, Dimitrije Cabarkapa, Rhonda Beemer

*(Original scientific paper)***The effects of vertical jump and sprint fatigue on total-body biomechanics 238-248**

Tatjana Trošt Bobić, Ivan Horvat, Marko Štrucelj

*(Original scientific paper)***Combined exercise training programme leads to different effects on power, muscular endurance and balance of institutionalized persons with intellectual disabilities 249-259**

Roberto Molina, Daniel Lapresa, Javier Arana, Hugo Salazar, Ildefonso Álvarez, Luka Svilar

*(Original scientific paper)***Analysis of weekly internal and external load fluctuation in professional basketball 260-267**

Valmir Oliveira Silvino, Cirley Pinheiro Ferreira, Luciano Sales Prado,
Bruno Pena Couto, Guilherme de Azambuja Pussieldi, Sandro Soares Almeida,
Danilo Marcelo Leite do Prado, Marcos Antonio Pereira dos Santos

(Review)

Variables used for talent identification and development in soccer: A scoping review 268-280

Research materials 281-282

Eider Barba, David Casamichana, Ane Iztueta, Julen Castellano

(Original scientific paper)

Differences in mechanical efficiency between female and male football players during official matches 283-290

Henri Tilga, Linda Marii Aljasmäe, Hasso Paap, Pille-Riin Meerits, Andre Koka

(Original scientific paper)

Effects of a web – based need – supportive intervention program on physical education teacher outcomes 291-303

Dragan Djurdjevic, Jovana Todorovic, Sandra Sipetic-Grujicic

(Original scientific paper)

Validity and reliability of the International Physical Activity Questionnaire-Short Form in adolescents 304-311

Abraham Batalla-Gavaldá, Jose Vicente Beltran-Garrido, Gerson Garrosa-Martín,
Raúl Montoliu-Colás, Francisco Corbi

(Original scientific paper)

Do stress tests reflect the intensity reached during competition in amateur men’s basketball? 312-324

Victor Reis Machado, João Marcelo Caríssimo, Israel Teoldo

(Review)

The effects of opposition on collective and individual behaviours in soccer: A systematic review 325-337

Danilo Reis Coimbra, Francine Caetano de Andrade Nogueira, Maurício Gattás Bara Filho,
Cristiano Diniz da Silva, Lelio Moura Lourenço

(Original scientific paper)

Competitive anxiety and self-efficacy in young volleyball players: A season trend study of the reciprocal effect on match outcomes 338-348

Guidelines for contributors 349-354

Peer reviewers 355-358
