

11. kongres Hrvatske udruge kardioloških medicinskih sestara

11th Congress of the Croatian Association of Cardiology Nurses

Poštovane kolegice, poštovani kolege,

radost mi je i čast pozdraviti Vas i zaželjeti Vam dobrodošlicu na 11. kongres Hrvatske udruge kardioloških medicinskih sestara (HUKMS-a) s međunarodnim sudjelovanjem i na 15. kongres Hrvatskoga kardiološkog društva (HKD) s međunarodnim sudjelovanjem, koji će se održati od 28. studenoga do 1. prosinca 2024. u hotel Westin u Zagrebu.

Ponosni smo što se naši kongresi održavaju pod pokroviteljstvom Hrvatske akademije znanosti i umjetnosti i Europskoga kardiološkog društva. Stručni i znanstveni program obaju kongresa teći će paralelno, a sadržaji su namijenjeni svim zdravstvenim profesionalcima koji su na bilo koji način uključeni u promociju, prevenciju i liječenje srčanožilnih bolesti.

Kao i na našim prethodnim kongresima nastojali smo obuhvatiti sve aktualne teme iz kardiološke prakse, o kojima će govoriti potvrđeni stručnjaci iz domaće i svjetske prakse. Kroz predavanja naših pozvanih predavača i usmene prezentacije odabranih tema iz prakse sudionika bit će prikazane suvremene spoznaje iz prevencije, dijagnostike i liječenja srčanožilnih bolesti.

Kako nas tehnološki napredak i moderni trendovi ne bi udaljili od temeljnih vrednota zdravstvene njege, geslo našeg, 11. kongresa jest „Zdravstvena skrb usmjerena osobi: misija, vizija i vrednote“. Geslo našeg kongresa misija je i vizija Hrvatske udruge kardioloških medicinskih sestara. Potvrda pak naše vjerodostojnosti jest činjenica da je HUKMS bio suorganizator Prvog međunarodnog kongresa medicina usmjerena prema osobi 2013. godine, a na 12. međunarodni kongres o medicini usmjerenoj prema osobi 2024. godine predsjednica HUKMS-a pozvana je da predstavi rad, misiju i viziju naše udruge. Naši su kongresi prilika da se susretne više generacija zdravstvenih profesionalaca, da razmjenjuju znanja i iskustva oni koji su gradili profesionalni rast naših stručnih društava i oni koji su budućnost hrvatske kardiološke prakse. Da će naši mladi članovi čuvati temeljne vrednote zdravstvene njege, svjedoče riječi jedne od njih: „Zdravstvena skrb usmjerena prema osobi perjanica je naše udruge.“

Zahvaljujemo predsjedniku HKD-a akademiku Davoru Miličiću na potpori i doprinosu profesionalnom razvoju HUKMS-a i prof. dr. sc. Mariju Ivanuši na svekolikoj pomoći u pripremi i objavi sažetaka u suplementu časopisa *Cardiologia Croatica*.

Vjerujemo da ćete zadovoljni stručnim i prijateljskim druženjem radosno zakoračiti u advent i tu, adventsku radost iz Zagreba ponijeti u svoje domove.

Dear Colleagues,

It is both a joy and an honor to greet and welcome you to the 11th Congress of the Croatian Association of Cardiology Nurses (CACN) with international participation and the 15th Congress of the Croatian Cardiology Society (CCS) with international participation, which will be held from November 28 to December 1, 2024, at the Westin Hotel, Zagreb.

We are proud that our congresses are held under the auspices of the Croatian Academy of Sciences and Arts and the European Society of Cardiology. The professional and scientific programs of both congresses will run simultaneously, and the content is intended for all healthcare professionals involved in the promotion, prevention, and treatment of cardiovascular diseases in any capacity.

As in our previous congresses, we have aimed to cover all current topics in cardiological practice, which will be addressed by recognized experts from both national and international fields. The lectures of our invited speakers and oral presentations of selected topics from cardiological practice will present contemporary insights into the prevention, diagnosis, and treatment of cardiovascular diseases.

In order to ensure that technological advancements and modern trends do not distance us from the core values of healthcare, the theme of our 11th congress is "Person-centered care: mission, vision, and values." This theme is both the mission and vision of the CACN. A testament to our credibility is the fact that CACN was a co-organizer of the First International Congress on Person-centered Medicine in 2013, and the president of CACN has been invited to present the work, mission, and vision of our association at the XII International Congress of Person Centered Medicine. Our congresses are an opportunity for multiple generations of healthcare professionals to meet, for those who have built the professional growth of our specialist societies to share their knowledge and experiences with those who represent the future of Croatian cardiological practice. The fact that our young members will uphold the core values of healthcare has been affirmed by the words of one among them: "Person-centered care is the flagship of our association."

We extend our thanks to the president of the CCS, Academician Davor Miličić, for his support and contribution to the professional development of CACN, and to Prof Mario Ivanuša for his extensive assistance in the preparation and publication of abstracts in the supplement of the *Cardiologia Croatica* journal.

We believe that, enriched by both professional and friendly gatherings, you will enter the Advent season with joy and carry the spirit of Advent from Zagreb to your homes.

Predsjednica kongresa / Congress president:

Ana Ljubas, mag. med. techn., FESC
