

Preface

We present you with the second issue of the journal *Distinctio* for 2024. This issue appears a bit late for a reason. Namely, as we published a special issue in October that was connected to a particular occasion, we did not want to publish a regular issue right after it, believing this would shift focus from the special issue. This is why we decided to postpone the second issue for 2024 a bit, leaving quite enough time for the special issue to be in the spotlight. As we have had one regular issue in 2024, we will not publish the list of reviewers for this volume, as this would risk endangering the blindness of the review process. All reviewers for issue 3 (2) and the issue that are a part of volume 4 will be published in the second issue of volume 4.
