Contents

Optimization of the Transmission Tube of a Ball Mill Based on the EDEM-Workbench Method You Zhou, Jicheng Shen, Weihua Wei, Fang Luo	1
A Study on Dynamic Characteristics of a Rotor System with a Coupling Fault of Bearing Outer Ring Defect and Bearing Looseness Zhongtang Huo, Jianqi Chen, Lingjuan Hao, Jiansong Gao.....	15
Harnessing Machine Learning for Wear Prediction in Sustainable Fibre-Reinforced Hybrid Composites Poyyathappan K, Dinesh S, Ganeshkumar A, Arul M	31
Deep Drawing of Sphere Using Explosive Forming Stipo Buljan, Darko Šunjić, Muhamed Sućeska, Safet Isić	45
Development and Testing of a Semi-physical Simulation System for a Pipe End Forming Machine Qingzhu Zhang, Liang Zhang, Yang Shen, Yunhao Fu, Liangyou Li, Pengfei Zhang, Yulan Wei.....	55
The Hybrid Approach of a Machine Learning Algorithm for Addressing the Permutation Flow-Shop Scheduling Problem J. Prince Jerome Christopher, K. Lingadurai.....	77
Impact of Electrical and Moving Magnetic Fields on the Heat Transfer Flow of Immiscible Pure Fluids and Nanofluids Through Porous Media with Varied Porosity Milica Nikodijević Đorđević, Jelena Petrović, Živojin Stamenković, Miloš Kocić, Dragiša Nikodijević	89
An Analysis of Vibration Characteristics of a Rotor System with Coupling Faults of Bearing Looseness and Bearing Pedestal Looseness Zhongtang Huo, Jianqi Chen, Lingjuan Hao, Jiansong Gao.....	103
Possibilities of Controlling the Ironing Process in Conditions of a Continuously Variable Lateral Force Slaviša Djačić, Milan T. Djordjević, Dušan Arsić, Srbislav Aleksandrović, Marko Delić, Djordje Ivković, Vukić Lazić	117
