Papers are subject to blind peer review according to the categorisation of corresponding scientific fields. For example, categorisation for the humanities is as follows:

1. Original scientific paper
2. Preliminary communication
3. Review article
4. Professional paper

The first three categories are scientific, and the fourth category is professional.

Each paper is subject to at least two peer reviews. If the opinions of the reviewers on the categorisation of the paper are divided, the Editor-in-Chief will decide on the final evaluation of the paper, whereby he may consult a third peer reviewer, the Editorial Staff or the Editorial Board. If the evaluations of two reviewers differ in more than one degree of categorisation, a third reviewer is certainly consulted.

The journal publishes a list of reviewers who have collaborated in the current issue, with their consent. A reviewer can refuse to have his name published in the journal. The names of the reviewers are never linked to the papers they reviewed.

The journal also publishes papers which are not peer reviewed (conference papers) and other papers (book reviews, reviews).

By submitting their papers to *Cris*, the authors agree that their papers in *pdf* format are displayed on the following websites: Hrčak, Portal of Croatian Scientific and Professional Journals; website of the Historical Society of Križevci.

Authors are kindly asked to consult the Ethics Code of Conduct in Publishing of the Journal *Cris*, which is available on the website <http://hrcak.srce.hr/cris>.

The submission deadline for the current year is June 30th.
