

12. kongres Hrvatske udruge kardioloških medicinskih sestara

12th Congress of the Croatian Association of Cardiology Nurses

Poštovani kolegice i kolege,

osobita nam je čast i zadovoljstvo zaželjeti vam dobrodošlicu na 12. kongresu Hrvatske udruge kardioloških medicinskih sestara, koji se održava od 6. do 9. studenoga 2025. u hotelu „Park“ u Makarskoj.

Program kongresa namijenjen je medicinskim sestrama i srodnim profesionalcima i izvršna je prilika za povezivanje i razmjenu znanja i iskustva svih zdravstvenih i nezdravstvenih stručnjaka koji su na bilo koji način uključeni u skrb za kardiovaskularne bolesnike.

Program uključuje plenarna predavanja, simpozije radnih skupina Hrvatske udruge kardioloških medicinskih sestara, sponzorirane simpozije, radionice i posterske prezentacije. Vaše konstruktivne rasprave na predavanjima koja vode domaći i međunarodni stručnjaci zasigurno će potaknuti razvoj brojnih ideja. Velik broj radionica na našem kongresu daje notu edukativnoga praktičnoga stručnog skupa koji će sudionicima pomoći da steknu nove ili unaprijede postojeće specifične vještine. Kroz neformalna prijateljska druženja raspravite o svim idejama i dvojabama kako biste zajedno pridonijeli postizanju ciljeva našeg kongresa, a to je gradnja profesionalne izvrsnosti.

Svima nam je dobro poznato da razvoj biomedicinskih i tehnoloških znanosti gotovo svakodnevno donosi brojne izazove u kardiološku praksu. S ponosom ističemo da hrvatsko kardiološko sestrinstvo prati trendove razvoja moderne kardiološke prakse, a integracija novih spoznaja usmjerena je na osobu i očuvanje temeljnih vrednota zdravstvene njege. Zato su fokus i geslo ovog, kao i prethodnog kongresa: *Zdravstvena skrb usmjerena osobi: misija, vizija i vrednote*.

Na svim našim stručnim sastancima posebno su zanimanje izazivala izlaganja iz svakodnevne kliničke prakse sudionika. Stoga smo i u ovaj program uključili sesije s prikazima zanimljivih slučajeva, kratkim priopćenjima iz svakodnevne kliničke prakse sudionika i posterske prezentacije. Sudionici će nam predstaviti svoja postignuća, a sve vas pozivamo na aktivno sudjelovanje kako bismo razmijenili iskustva, dali odgovore na pitanja i razjasnili moguće dvojbe.

Zahvaljujemo prof. dr. sc. Mariju Ivanuši na svekolikoj pomoći u pripremi i objavi sažetaka u suplementu časopisa *Cardiologia Croatica*.

Vjerujemo da će vam stručno i prijateljsko druženje u Makarskoj ostati u trajnome sjećanju.

PREDSJEDNICI KONGRESA / CONGRESS PRESIDENTS:

Ana Ljubas, mag. med. techn., FESC

Ivica Benko, dipl. med. techn., ECDSAP

Dear Colleagues,

It is a great pleasure and honor to welcome you to the 12th Congress of the Croatian Association of Cardiology Nurses that will be held between November 6th and November 9th, 2025, at the Park Hotel in Makarska, Croatia.

The Congress program is intended for medical nurses and related professions and represents an excellent opportunity for networking and sharing knowledge among all healthcare and non-healthcare professionals who are involved in the care for cardiovascular patients.

The program will consist of plenary lectures, a conference of the working groups of the Croatian Association of Cardiology Nurses, sponsored conferences, workshops, and poster presentations. Your constructive discussions at these lectures, led by Croatian and international experts, will undoubtedly spark the development of many new ideas. The numerous workshops that will be held as part of our Congress will also provide it with a practical educational dimension, helping participants acquire new or develop existing specific skills. Informal friendly discussions will provide participants with the opportunity to discuss any ideas or dilemmas they may have, so that we can all contribute to achieving the goal of our Congress together – fostering professional excellence in our field.

We are all aware that advancements in biomedical and technological sciences introduce new challenges into cardiological practice at a rapid pace. We are proud to say that cardiological nursing in Croatia has kept up with the most recent trends and developments in cardiological practice, and the integration of new insights has remained focused on the individual and on preserving the fundamental values of medical care. Therefore, the focus and motto of this congress, just like the previous one, is *“Person-centered care: mission, vision, and values”*.

At all our previous professional conferences, lectures on the everyday clinical practice of our participants were considered to be especially interesting. Our program therefore includes sessions describing interesting cases, brief reports from the everyday clinical practice of our participants, and poster presentations. Our participants will present their achievements, and you are all invited actively participate in the resulting discussions in order to exchange experiences, answer questions, and resolve any potential dilemmas.

We would like to thank Prof Mario Ivanuša for his extensive assistance in the preparation and publication of congress abstracts in a supplemental issue of the *Cardiologia Croatica* journal.

We are certain that our professional and friendly meeting in Makarska will remain a lasting and fond memory for all our participants.
