

## CONTENTS

## A. SOME TOPICS RELATED TO NUCLEAR PHYSICS

A1	Č. ZUPANČIČ: Study of Nuclear Structure with $\pi$ Mesons .....	3
A2	R. ODORICO: Some Rules in High Energy Physics .....	3
A3	D. TADIĆ: Parity Nonconserving Potentials .....	3
A4	P. COLIĆ: On CP-Parity Violations .....	6

## B. FEW NUCLEON PROBLEMS

B1	I. ŠLAUS: Few Body Problem in Nuclear Interaction Studies .....	9
B2	V. VALKOVIĆ: Some Aspects of Reactions with Three Particles in Final State ..	9
B3	J. HUDOMALJ and V. VALKOVIĆ: Three-Body Break-up of Light Elements Induced by Low Energy Hydrogen and Helium Ions .....	12
B4	P. TOMAŠ: Nucleon-Nucleon Interaction in the Scattering of Deuterons, $^3\text{He}$ and $^4\text{He}$ .....	14
B5	M. V. MIHAILOVIĆ, M. ROSINA and B. ROBLEK: A Lower Bound of Triton Binding Energy .....	15
B6	N. BLEDIĆ: The Electromagnetic Formfactor for $^3\text{He}$ and $^4\text{He}$ .....	16
B7	E. COFFOU: An Exact Solution of the Three-Body Problem and the Triton .....	16

## C. NUCLEAR STRUCTURE

C1	M. V. MIHAILOVIĆ: The Generator Coordinate Theory of Nuclear States .....	19
C2	D. JUSTIN, M. V. MIHAILOVIĆ and M. ROSINA: The Pairing Vibrations .....	21
C3	N. MANKOČ, M. V. MIHAILOVIĆ and M. ROSINA: An Approximate Method for the Projection of the Number of Particles .....	22
C4	M. V. MIHAILOVIĆ and M. ROSINA: The Characterization of Collective States with Density Matrices .....	23
C5	F. HERBUT and M. VUJIĆ: Antilinear Operators in the Theory of Nuclear Structure .....	25
C6	L. ŠIPS: Phenomenological Limit of Semimicroscopic Description .....	25
C7	J. HENDEKOVIĆ: On the BCS-Model in Nuclear Theory .....	25
C8	M. KREGAR: Some Open Problems in the 2s 1d Shell .....	28
C9	G. KERNEL: Isobaric Splitting of the Giant Dipole Resonance in Nuclei .....	29

## D. NUCLEAR REACTIONS

D1	J. BRAJNIK, U. MIKLAVŽIČ, G. KERNEL and D. JAMNIK: Deexcitation Gamma Rays from Residual Nuclei in the Photodesintegration of $^{40}\text{Ca}$ .....	31
D2	F. CVELBAR, A. HUDOKLIN, M. V. MIHAILOVIĆ and M. POTOKAR: Radiative Capture of 14 MeV Neutrons .....	32
D3	N. CINDRO: Spectrometry of Charged Particles .....	34
D4	M. L. CHATTERJEE and M. JURČEVIĆ: Possibility of Finding the $\alpha$ -Clustering Probability from (n, $\alpha$ ) and (p, $\alpha$ ) Studies .....	34

(Continued)

(Continued)

D5	S. KOIČKI and A. KOIČKI: Perturbed Angular Correlations of Gamma Rays in Ferrites with Garnet Structure	38
D6	M. TURK: Discussion on the ${}^7\text{Li} (n, \alpha t)n$ Reaction	39
D7	J. TUDORIĆ-GHEMO: Experimental Evidence for $(n, \alpha)$ Knock-out Reactions on Nuclei in Mass Number Region $A=100$	39
D8	D. STANOJEVIĆ, R. POPIĆ, B. STEPANČIĆ and M. ALEKSIĆ: On the Widths of Some ${}^9\text{Be}$ and ${}^6\text{Li}$ Energy Levels	39

#### E. $\beta$ AND $\gamma$ SPECTROSCOPY

E1	K. ILAKOVAC, A. LJUBIČIĆ, B. HRASTNIK, M. JURČEVIĆ and V. KNAPP: Second-Order Electromagnetic Transitions	43
E2	A. LJUBIČIĆ, B. HRASTNIK, K. ILAKOVAC, M. JURČEVIĆ and V. KNAPP: Investigation of the $e\gamma$ Process in ${}^{137}\text{Ba}$	46
E3	B. HRASTNIK: Gamma-Gamma Angular Correlation Measurements with a Ge (Li) Detector in one Channel	48
E4	Đ. M. KRMPOTIĆ, L. G. MARINKOV and A. H. KUKOČ: E0 Admixture in the $2^+ - 2^+$ Transition in ${}^{192}\text{Pt}$	49
E5	L. MARINKOV, I. ANIČIN, I. BIKIĆ and R. STEPIĆ: The Electric Monopole Component in the $2^+ - 2^+$ Transition in ${}^{192}\text{Pt}$	49
E6	R. VUKANOVIĆ, L. SAMUELSSON, M. MIGAHEH, L. WESTERBERG and L. O. EDVARDSON: Internal Conversion Studies of Double Decay Processes in ${}^{114}\text{In}$	49
E7	L. SAMUELSSON, R. VUKANOVIĆ, M. MIGAHEH, M. ŽUPANČIĆ, L. O. EDVARDSON and L. WESTERBERG: The 371 keV $2^+ - 2^+$ Transition in ${}^{190}\text{Os}$ Investigated by Electron-Electron and Gamma-Electron Directional Correlations	49
E8	I. BIKIĆ, L. MARINKOV, I. ANIČIN, M. ŽUPANČIĆ, R. VUKANOVIĆ and D. CVETIČANIN: $2^+ - 2^+$ Transition of 693 keV in ${}^{154}\text{Gd}$	50
E9	M. ŽUPANČIĆ, R. VUKANOVIĆ and D. CVETIČANIN: The Multipolarity Mixture of the 793 keV $2^+ - 2^+$ Transition in ${}^{184}\text{W}$	50
E10	M. BOGDANOVIĆ, M. MLAĐENOVIĆ and R. STEPIĆ: Measurements of the Internal Conversion $K/L_3$ , $M/L$ and $(N+O+\dots)/M$ Ratios for E2 Transitions	50
E11	M. STOJANOVIĆ, M. MLAĐENOVIĆ, V. AJDAČIĆ and I. SLAVIĆ: E2 Branching Ratios of Even Even Deformed Nuclei	51
E12	D. KRPIĆ, R. STEPIĆ, M. BOGDANOVIĆ and M. MLAĐENOVIĆ: The $K/L_3$ , $M/L$ and $(N+O+\dots)/M$ Ratios for 239 keV M1 Transition in ${}^{212}\text{Bi}$	52
E13	J. V. MILANOVIĆ, A. H. KUKOČ and Đ. M. KRMPOTIĆ: The Summing Effect Correction of Correlation Coefficients	52
E14	T. NOVAKOV, R. STEPIĆ and P. JANIČEVIĆ: Internal Conversion Experiments with ${}^{239}\text{Np}$ Sources as Oxide and Hydroxide	53
E15	J. SIMIĆ, I. SLAVIĆ, V. AJDAČIĆ and B. LALOVIĆ: Gamma Rays from Thermal Neutron Capture in Lanthanum	56
E16	B. EMAN: High-Order Corrections to Electron Radial Wave Functions	59
