

FIZIKA

A JOURNAL OF EXPERIMENTAL AND
THEORETICAL PHYSICS

Volume 2 — Supplement 1

PROCEEDINGS OF THE V SYMPOSIUM ON THE PHYSICS OF IONIZED
GASES, HERCEGNOVI, 1970

EUROPHYSICS JOURNAL

Published by the Commission for Physics of the Yugoslav Union of
Mathematical and Physical Societies and the National Committee
of IUPAP

This Supplement contains the papers reported at the V Yugoslav Symposium and Summer School on the Physics of Ionized Gases, held in Hercegnovi, July 6—16, 1960.

The papers are distributed in three groups according to the sections in the Symposium programme: 1) Atomic Collision Processes, 2) Particle Interaction with Solids and 3) Phenomena in Plasmas. The papers submitted for publication in this issue were refereed by the undersigned members of the Editorial Committee who also participated in the Symposium. The invited lectures are published in a separate book.

The edition of this Supplement was made possible through the financial aid of the Yugoslav Federal Fund for Scientific Work.

Beograd, December 1970.
