Application of Artificial Neural Networks to Assess the Trend of Energy Storage Control Variables in a Multi-Storage Energy System Filip Milešević, Luka Perković.....	1
Influence of Under-Wing Store Mass on the Flutter Response of an F-16 Model Wing Kemal Yaman, M. Burak Dalmış	21
Additive Manufacturing Case Study: Metal 3D Printing of a Wankel Engine Model Djordje Dihovieni, Milan Mišćević, Aleksandra Mitrović, Nada Ratković Kovačević	39
Lightweight Design of Forklift Truck Boom Cross-Section Based on Multi-Level Optimisation Zhanpeng Fang, Liukai Zhao, Yanqiu Xiao, Jiaqi Qi, Guangzhen Cui, Lianhui Jia, Wei Xiao	51
SEM/EDS Characterisation of MEA Substrates with 3D Microtopography: Composition Uniformity Metrics and Salt-Residue Coverage Boris Delipetar, Ivana Weber, Damir Kovačić.....	73
Improvement of Titanium Cold Spray Coating Adhesion by Shot Peening Martin Vicen, Libor Trško, Otakar Bokůvka, Eva Nogová, Anna Góral, Wojciech Żórawski	87
Nature as Input: A Framework for Defining Bioinspired Input Parameters in Topological Optimisation Marija Rešetar, Filip Valjak, Nenad Bojčetić, Miroslav Kuhar.....	101
Investigation of Microstructure and Mechanical Properties of Cold Metal Transferwelded AA7075 Joints R. Venkatesh, K. Jayakumar.....	113
