- Jyotirmay Gadewadikar,
Ognjen Kuljaca, Frank L. Lewis*
- 3** Editorial
- 5** In memoriam B. sc. Vladimir Matijević
- 7** Self-Adaptive Predictive Functional Control of
Temperature in an Exothermic Batch Reactor
original scientific paper
- 17** Model-Driven Software Development and Discrete Event
Simulation — Concepts and Example
original scientific paper
- 29** A Pallet Packing CPN Optimization Approach for
Distribution Center
original scientific paper
- 39** Modelling and Simulation of Transportation Systems:
A Scenario Planning Approach
original scientific paper
- 51** Free Space Representation for Biped Walking Robots
original scientific paper
- 65** Experimental Comparison of Sonar Based Occupancy Grid
Mapping Methods
original scientific paper
- 81** Multi-agent Highway Toll Collection System
preliminary communication
- 93** On Design, Measurement Tools and Robust Control of
Wireless Telecommunication Networks
preliminary communication
- 101** **Comments and Opinions**
- 107** **Meetings and Events**
