SPORT MEDICINE CONGRESS IN BLEDED 2011

FOCUS:

The leading focus of the conference is gathered towards the practical issues of working with volleyball athletes as a team of health professionals. Over 450 physicians, physical therapists, athletic trainers, fitness coaches working in volleyball and other participants will discuss how to prevent, diagnose and treat injuries, commonly seen among volleyball and beach volleyball players at all level of participation. In addition, the best and most recent researches, related to health and performance in volleyball, will be presented. On this pioneer function we are hosting representatives from each and every country of the world, invited lecturers from 14 different countries. Consideriderig this circumstance, the Congress is qualified as the biggest of its kind, supported and approved by both, Slovenian president, Mr. Türk and FIVB president, Mr. Wei.

About:

FIVB World congress of sport medicine and volleyball will be held in Bled, from 13th till 15th January 2011, under sponsorship of *World volleyball federation and Faculty of Sport, Ljubljana, Slovenia*
