

SPONSORS OF THE MEETING

Thank you for making a financial contribution to the organization and for enabling us to organize this meeting of 155 geodesy students who came from around the world.

After this meeting, we became enriched with new experiences and knowledge which was transferred to us by our colleagues from around the world. We, future professionals in the field of Geodesy and Geoinformatics, acquire valuable, new knowledge and skills each time a meeting like this is organized. We hope that in the future we will continue our cooperation in order to preserve the tradition of going to the international meetings of geodesy students.
