COMMENTS TO AUTHORS

General comments:

Specific comments:

I'm returning you the reviewed article. I have found some inconsistency and write you some comments that may approve your article. Above all, please correct the reference list according to journal instructions. Congratulations on the work!

on the basis of the pdf notes all the suggested changes and corrections have been included in the paper

page 3: Carabid beetles: after the first usage of Carabid beetles, where possible I've used the word carabids

page 5: legend to table has been given in more detail

page 8: added a reference to the Appendix table (missing before)

page 10: now Tab. has been used when in parentheses, otherwise Table has been used

page 12: when I was a student, Prof. Pignatti told me that alpine is a general term, while Alpic is the specific equivalent for the Alps, so I would like to keep Alpic.
