### Questionnaire on voluntary health insurance

Dear Sir or Madam,

This study is being conducted as part of a graduate thesis titled „Determinants of demand for voluntary health insurance“. This questionnaire is entirely anonymous, and the obtained results will be used exclusively for the purposes of this paper. Thank you in advance.

Voluntary health insurance is divided into supplementary, complementary and private insurance. **Supplementary health insurance** complements mandatory health insurance and is used as an additional payment up to the full price of health care from the mandatory health insurance. In regards to mandatory health insurance, **complementary health insurance** ensures higher healthcare standards and is supplemental to mandatory health insurance.
