THE AVIFAUNA OF THE LASTOVO ARCHIPELAGO AND SURROUNDING SEA AREA, CROATIA

Ornitofauna Lastovskog arhipelaga i okolnog morskog područja, Hrvatska

DRIES ENGELEN, BILJANA JEČMENICA

Corresponding author: Dries Engelen, dries.engelen@biom.hr

Supplementary Table 1. All bird species recorded in the SPA Lastovsko otočje (following the taxonomy of HBW and BIRDLIFE INTERNATIONAL (2024). Handbook of the Birds of the World and BirdLife International digital checklist of the birds of the world. Version 8.1). In bold are the species which were recorded as breeding birds during this study. The global conservation status for each species is according to the IUCN Red List (LC = Least concern; NT = Near threatened; VU = Vulnerable). For bird species that have been recorded in the Lastovo archipelago, but not during this study, specific sources are mentioned (1 = KRPA 1970; 2 = BUDINSKI 2011; 3 = RÖSSLER 1915; 4 = ADOJAAN *et al.* 2019; 5 = GPS-tracking data from LIFE Egyptian Vulture project (CECCOLINI, G. & CENERINI, A., pers. comm.); 6 = Social media channels Nature Park Lastovo Islands).

Dodatna tablica 1. Sve vrste ptica zabilježene u POP-u Lastovsko otočje (prema taksonomiji HBW i BIRDLIFE INTERNATIONAL (2024). Handbook of the Birds of the World and BirdLife International digital checklist of the birds of the world. Verzija 8.1). Podebljane su vrste koje su zabilježene kao gnjezdarice tijekom ovog istraživanja. Globalni status ugroženosti za svaku vrstu naveden je prema IUCN-ovom Crvenom popisu (LC = najmanje zabrinjavajuća; NT = gotovo ugrožena; VU = osjetljiva). Za vrste ptica koje su zabilježene na području Lastovskog otočja, ali ne i tijekom ovog istraživanja, navedeni su specifični izvori (1 = KRPA 1970; 2 = BUDINSKI 2011; 3 = RÖSSLER 1915; 4 = ADOJAAN *et al.* 2019; 5 = GPS podaci praćenja iz projekta LIFE Egyptian Vulture (CECCOLINI, G. & CENERINI, A., osobno priopćenje.); 6 = društveni mediji Parka prirode Lastovsko otočje).
