1. Manuscripts should be submitted double-spaced with wide margins (2.5 cm). All pages should be numbered consecutively. Manuscripts should be submitted in .docx and .pdf file formats.
2. Page one should contain the following information: article title in the language of the article, author(s) name(s), author(s) affiliation(s), information about the corresponding (full address, phone numbers, e-mail address), ORCID, abbreviated form of the title for the running page heading (maximum 45 characters including letters and spaces).

5. All figures must be submitted in a separate document in one of the following file formats: png, jpg, gif, bmp, etc. Authors are encouraged to submit charts in MS Excel files as well. Figures should be numbered in order of appearance with Arabic numerals. Figure captions should be included for each figure. In the text itself the place for each figure should be clearly marked. Figures should be in black and white, with their size and complexity adjusted to the format of the Journal so that all elements are clear and visible.
6. Tables should be numbered in order of appearance with Arabic numerals and placed at the end of the text. Table caption should be included for each table. In the text of the article the place for each table should be clearly marked.

They should be listed alphabetically according to the surname of the author, and chronologically if a particular author has more than one item listed. If several items by the same author were published in the same year, they should be differentiated by letters (a, b, c, etc.) following the year of publication. If an item was authored by several authors, all authors should be listed in the reference list at the end (instead of using 'et al.' or 'and collaborators').
9. The journal uses APA style (<http://www.apastyle.org/>) to format references in the text and bibliography. A short reminder of these instructions is included below.
10. Papers written in Croatian should also include the following sections translated to English: manuscript title, authors' affiliations, figure captions, table captions and a summary with the maximum length of 2500 characters with spaces.

This section gives basic information about APA style citation. More information, such as publication types not listed here, can be found on APA website (www.apastyle.org). References should be cited in the text by the last name of the author and the publication year in parentheses, e.g. (Laver, 1994) or Laver (1994); if direct quotes are used from the reference, page number should also be given after a colon, e.g. (Laver, 1994: 72). If more than one article was published by the same author in a given year, the following format should be used: Kimura (1973a) or (Kimura, 1973b). Articles with two authors are cited as (Studdert-Kennedy & Shankweiler, 1970); for articles with three or more authors the first author should be followed by 'et al.' (Tomić et al., 2011). All references cited in the text should be listed alphabetically at the end of the article. Please, observe the following formats.

Review procedure

Reviews are anonymous. Each article is reviewed by three independent reviewers. All the papers that pass the first editorial control are subject to the so-called double-blind review process which does not reveal the identity of the authors or reviewers. Therefore, the authors are asked to remove from the text and list of references, as well as from the properties of the electronic document, all the information that can reveal their identity (name, project information). The authors will be asked to modify their contributions in accordance with the reviewers' suggestions.

After receiving the reviews, the authors, in addition to the new version of the manuscript, submit to the Editorial board a cover letter stating which reviewers' proposals were accepted and in what way, and which were not accepted.

The Editorial board reserves the right to revise the manuscript to the journal's standards in terms of editing and language. Proofs will be sent to the designated author. Prompt reply and return of corrected proofs will be expected.

Ethics

Research should be in accordance with the applicable ethical rules and codes of conduct in research, wherein the description of the research procedure should contain all information relevant to the evaluation of the ethics of conducting the research. The Editorial board may request confirmation from the authors that the research was approved by the ethics committee of the relevant institution.

We encourage authors to familiarize themselves with Publication Ethics and Malpractice Statement, because by submitting the manuscript for publication in Govor, the authors accept that statement.
