

UPUTE AUTORIMA

Radovi se dostavljaju na papiru formata A4 s dvostrukim proredom u Times New Roman fontu, veličine 11 i na CD-u. Ilustracije se prilažu posebno (u *jpg*, *rtf* ili *tiff* obliku), s naznakom u tekstu gdje bi se u kontekstu trebale nalaziti i navedenom željenom veličinom ($\frac{1}{4}$, $\frac{1}{2}$ stranice, cijela stranica). Također moraju biti numerirane (Sl.1, T. IV) i popraćene odgovarajućim legendama, a treba izbjegavati podnumeraciju (npr. Sl.1a, T.Va). Molimo ne slati originalne crteže. Table se smještaju iza teksta i zauzimaju cijelu stranicu. Isprintati slike, table i grafove i poslati ih uz CD. Uz radove treba dostaviti ime i prezime, stručno zvanje i službenu adresu, uključujući i adresu elektroničke pošte. Također je potrebno priložiti i uvodni sažetak, ne više od 1200 znakova, napisan u kurzivu i jeziku članka, te popis od 5 do 10 ključnih riječi.

Literatura se navodi na tzv. Harvardskom stilu kako slijedi.

Harvardski stil (autor i godina izdanja, broj stranice) s popisom literature na kraju članka; npr. (Batović 1966, 32). Između godine i broja stranice stavlja se zarez. Ako se citira više autora, navode se po abecednom redu i razdvojeni točkom-zarezom; npr. (Andrić 2004, 32; Batović 1966, 18; Šimić 1995, 118).

Web izvori u tekstu

Ako se citira literatura sa Interneta: navodi se autor ili naziv organizacije i godina, ako je to poznato, a u literaturnom popisu daje se cijela referenca; ako autor nije poznat u tekstu se navodi Anonymous i godina kada je web stranica postavljena ili osvježena, npr (Anonymous 2008). Ako ima više takvih citata onda se navodu, Anonymous i godina, pridružuje i redni broj, npr (Anonymous 3, 2008).

Primjeri za navode literature su dati niže. Provjeriti da li je popis literature kompletan, jer provjera točnosti navoda traži izuzetno puno vremena i uzrokuje odgodu datuma tiskanja.

Inicijale imena zaključiti točkom, i odvojiti razmakom, npr. BELOŠEVIĆ, J., MIRACLE, P.T., ne BELOŠEVIĆ, J. MIRACLE PT, itd.

Nazivi časopisa i serija moraju biti pisani u potpunosti, npr. "Vjesnik Arheološkog muzeja u Zagrebu", ne "VAMZ".

INSTRUCTIONS FOR AUTHORS

The papers should be submitted on A4 size sheets, written in double spaced Times New Roman font, size 11, as well as on a CD. The illustrations should be attached separately (in *jpg*, *rtf* or *tiff* format), specifying in the text where in the context should they be located, and stating their desired size ($\frac{1}{4}$, $\frac{1}{2}$ page, entire page). They must likewise be numbered (Fig. 1, T. IV) and accompanied by appropriate legends, sub-numeration should be avoided though (e.g., Fig. 1a, T.Va). Please do not send original drawings. Tables are placed at the end of the text and occupy an entire page. Print the pictures, tables and graphs and send them along with the CD. The papers should be accompanied by the author's name and surname, professional title, official address, as well as an e-mail address. You also need to attach an introductory summary, not more than 1,200 characters long, written in italics and in the language of the article, as well as a list of 5 to 10 keywords. Literature is cited using the so-called Harvard Style, as follows.

Harvard Style (author and year of publication, page number) with a list of literature at the end of the article, e.g., (Batović 1966, 32). A comma should be placed between the year and page number. If several authors are cited, list them in alphabetical order, placing a semicolon between each one of them; e.g. (Andrić 2004, 32; Batović 1966, 18; Šimić 1995, 118).

Web sources in the text

If you are citing literature from the Internet: state the author or organization name as well as the year, if this is known, and in the literature list include the whole reference; if the author is not known, state as Anonymous in the text, together with the year the website was set up or updated, e.g., (Anonymous 2008). If there are several such quotes, then state Anonymous and the year, and include a serial number, e.g., (Anonymous 3, 2008).

Examples of literature citations are given below. Check whether the literature list is complete, because checking the accuracy of the citations requires a great amount of time and causes delays in the publication date. The initials in a name should be followed by a point, and separated by a space, e.g., BELOŠEVIĆ, J., MIRACLE, P. T., and not BELOŠEVIĆ, J. MIRACLE PT, etc. The names of journals and serial publications must be written in full, e.g., "Bulletin of the Archaeological Museum at Zagreb", and not "VAMZ".
