

GUIDELINES FOR AUTHORS

The journal MESO publishes original scientific papers, review papers, brief communications, preliminary communications, professional papers, author reviews and presentations from scientific and expert conferences, as well as other thematically acceptable articles in Croatian and in English.

The scientific and professional manuscripts submitted to the journal are sent to peer-review processing by two independent reviewers who are experts in the field of the topic of manuscripts and have no conflict of interest. The Editorial Board may require authors to improve their work without submitting it to the peer review process or may immediately reject it.

Content and volume of articles

The headline of the article should be concise. The names of the authors should follow the title. The Academic degree and Affiliation for corresponding and all other authors should be specified.

Original scientific papers, review articles, and expert discussions must have an abstract in English between minimum 300 to 500 words, while other papers must have an abstract of up to 300 words. A minimum of 3 – 6 keywords should also be provided.

Last names and the year of publishing (in brackets) of the authors cited in the text are stated in the following way:

- a) if there is one author: Kozačinski (2018)
- b) if there are two authors: Kozačinski and Mikuš (2019)
- c) if there are three or more authors: Cvrtila et al. (2022)

The list of References should be arranged alphabetically by authors' names. Abbreviate the titles of the periodicals listed in the References section according to the International List of Periodical Title Words Abbreviations (see Web of Science Journal Title Abbreviations). Doi numbers must be provided for all references that contain one, written in a separate line at the end of the corresponding reference. If in doubt, doi numbers may be checked on www.crossref.org.
