INSTRUCTIONS FOR AUTHORS

“Paragraf” is an annual journal containing the best student papers dealing with legal and social issues. It contains papers of the students of both the Faculty of Law Osijek and other faculties in the Republic of Croatia. The Editorial Board may also approve of the publication of a paper from a foreign faculty. The periodical is published by the Faculty of Law Osijek. Papers submitted for publication must deal with legal, economic, sociological or other social topics.

Papers submitted for publication must not have been published in any other professional or scientific publication. Every author signs the Authorship Statement (the form may be downloaded from the journal website). Having signed the Statement, the author/authoress guarantees that the submitted paper is his/her original manuscript, that it does not violate any ethical rules or copyrights, and that it strictly follows the rules and methodology of scientific work regarding the citation of other researcher work results. All submitted papers undergo authentication and anti-plagiarism tests based on available and verified software.

When sending their papers to the Editorial Board, authors should also attach a recommendation letter from a university professor for the publication of the paper. The recommendation form can be downloaded from the journal website.

Papers are sent to the Editorial Board in electronic form (format.doc) using the following E-mail address: paragraf@pravos.hr. The recommendation letter and one printed copy of the paper are sent to the following address:

“Paragraf”
Josip Juraj Strossmayer University of Osijek, Faculty of Law Osijek
Stjepana Radića 13
31 000 Osijek
Republic of Croatia

The author/authoress retains copyrights for the published paper, but gives the journal the right of first publication. The author/authoress has the permission to publish papers accepted for publication or already published in “Paragraf” in other publications but with the remark that the paper was already published in the “Paragraf” journal. By submitting the paper for publication, authors/authoresses agree to the publication of an electronic version of the paper.

All papers (with the exception of reviews, critical overviews, conference reports etc.) must undergo a review procedure, and only positively reviewed papers are published. The papers are categorised as follows: original scientific paper, preliminary communication, review article, and professional paper. A final decision about paper categorisation is made by the Editorial Board primarily on the basis of the reviewers’ opinion. The Edi-
orial Board reserves the right to adjust the paper to general editing rules for journals and the rules of the standard Croatian language.

Papers submitted for publication must meet the following technical requirements?

1. Papers submitted for publication may be written in Croatian or in English.
