

INSTRUCTIONS TO AUTHORS

Plagiarism Detection: All received manuscripts are authenticated with the **iThenticate** software before being submitted for review.

Authorship: Authors should follow the criteria to qualify for authorship according to the International Committee of Medical Journal Editors (ICMJE), <http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>

Paper categorization: Refereed papers and non-refereed supplements are published in the Journal. Reviewed papers are categorized as original scientific papers, preliminary communications, review articles, and technical papers. Technical papers are not published in the Journal. Unreviewed articles are information from scientific conferences, reviews of books and journals, new regulations, organizational changes, etc. (up to 4 pages with spacing).

Instructions for preparing the manuscript before submitting to the Journal

- Papers are up to 16 pages with spacing.
- Authors should write a paper in the English language.
- **Paper submission:** via Open journal system. Manuscripts can also be submitted by mail: journalpomorstvo@pfri.hr
- Each manuscript submission should contain a **cover letter** as a separate document. It should contain a short explanation of the paper's scientific contribution, stating the findings in the context of existing work and why it fits the Journal's scope. Author(s) should confirm that the manuscript nor any parts of its content are currently under consideration or published in another journal. The cover letter should be in English language.
- Each author in the manuscript should have the exact affiliation address (in English). In each paper, a correspondent author should be appointed, along with the e-mail address.
- Authors should indicate each author's affiliation's original name and send that **in a separate document** by mail to journalpomorstvo@pfri.hr. The same document should also contain the telephone number of the corresponding author (the telephone number will not be announced to the public).
- Authors are kindly asked not to graphic prepress the typescript. At the beginning of the paper, it is necessary to state the paper's title, the author's or authors' names and surnames, contact addresses, abstract, and keywords.
- The summary should contain at least 100 words, stating briefly the goal, methodology, main ideas and purposes of the paper, and its scientific contribution. Keywords should be listed after the summary.

INSTRUCTIONS TO AUTHORS

- Tables, diagrams, illustrations, and charts must be understandable (bearing the ordinal number, title, source of information, and, if necessary, the explanation of symbols).
- Minimum resolution for all types of graphics is 300 dpi. If possible, authors should send graphics (tables, diagrams, pictures, charts) as separate documents.
- Formulae should be put down as clear as possible using the standard expressions in MathType or Equation editor.
- The **bibliography** (books, papers, Internet, and other electronic sources in the paper / textual quotations) should be Harvard Style-sized. At the end of the paper, the list of references should refer to particular bibliographic units, bear the ordinal number (in square brackets), and be listed in alphabetic order considering the author's name. Quotations should be written in brackets, stating the bibliographic unit's ordinal number and the page or stating the author's name of the bibliographic unit, the year of publication, and the pages. It is preferable to avoid quoting by using footnotes.
- Each author is the only person responsible for the facts stated in her/his paper published in the Scientific Journal of Maritime Research. The Faculty of Maritime Studies of the University of Rijeka, as Editor and Publisher, is, therefore, released from any responsibility that may be imposed on in this respect.
- The Journal is printed in A4 format.

The following statements should be written at the end of the manuscript, but before literature.

Funding: The manuscript should contain all sources of funding for the study, clearly stated. If the research is not funded, then the following statement should be included: "The research presented in the manuscript did not receive any external funding."

Acknowledgments: This section contains any acknowledgment or support that the authors concern essential to share with the audience.

Author Contributions: Each author named in the manuscript should have assigned a contribution to the manuscript (i.e., conceptualization, methodology, data collection, data curation, formal analyzes, research, writing, review and editing, supervision, validation, verification, final approval...). That should be written as follows: Research, Name Surname; Writing, Name Surname and Name Surname; Verification / Mathematical harmonization, Name surname). Only authors who contributed to the manuscript should be stated.
