## INSTRUCTIONS TO AUTHORS

1. *Transactions of FAMENA* will publish original scientific papers, preliminary notes, subject reviews and professional papers. Book reviews, conference announcements, obituaries, etc., will be published in the Appendix of the journal.
2. The journal publishes research and professional papers in the following fields:

Aerospace Engineering	Mechanical Design
Automotive Engineering	Mechanics & Fluid Mechanics
Biomechanics	Nanotechnology
Energetics	Naval Architecture
Engineering Design	Numerical Methods
Experimental Methods	Process Planning
Industrial Engineering	Quality Assurance
Machine Tools and Machining	Robotics & Mechatronics
Materials Science	Thermodynamics
Mathematical Modelling and Simulation	

Authors are kindly requested to indicate the main field of their paper. They can also add one to three related fields.

3. The language of the journal is English. Please use your knowledge, spell checker or, preferably, professional English proofreading service.
4. For the purpose of reviewing, author(s) should submit the following documents to the Editor-in-Chief or Associate Editors:
  - a) Fully formatted, print-ready manuscript based on the journal's MS Word template. Please, use the most recent template.
  - b) PDF version of the manuscript.
  - c) Confirmation of Authorship form signed and scanned by the corresponding author.
5. Full name and affiliation of the author(s) should be provided. The corresponding author (the first named author, unless indicated otherwise) should provide his/her full address as well.
6. Please consider the following rules and recommendations:
  - The abstract must not exceed 150 words in length with 3-5 keywords.
  - Follow this order when typing manuscripts: Author(s), Title, Abstract, Keywords, Main text, Acknowledgements, References, Author(s)'s affiliation, Appendix.
  - Symbols for physical quantities, symbols for functions in general, and variables should be written in italics and equally styled throughout the manuscript.
  - The symbols for SI units and SI prefixes should be written upright in roman type. Never put the symbols for units in square brackets!

- Mathematical symbols and formulae should be inserted using (preferably) MathType. Special care should be exercised in identifying all symbols and in avoiding ambiguities.
  - References to published literature should be cited in the text using numbers in square brackets, e. g. [1], and arranged in the order of appearance in the Reference section.
7. If the subject of the manuscript fits in the scope of the journal and if the manuscript meets common standards of scientific writing, reviewers will be asked to provide comments on the manuscript. The reviewing will normally take 6 to 10 weeks.
  8. In the case of a positive review, the authors(s) will be provided with an invoice for the publication fee, which is 350€ for up to 12 pages and additional 35€ for each 2 pages exceeding the 12 page limit.
  9. Additionally, author(s) will be contacted about the English language editing and typesetting processes.
  10. Starting with the first issue in 2018 onwards, all papers submitted to Transactions of FAMENA will be checked on plagiarism twice using a leading international similarity checking application immediately after submission and prior to publication. Transactions of FAMENA retains the right to reject the submitted paper in any phase of the publishing procedure or retract the already published paper if the conditions specified in the Confirmation of Authorship are not fulfilled. In those cases, the publishing fee will not be reimbursed to the authors of rejected or retracted papers.
  11. The published papers are open for discussion during a one-year period.
  12. While the information in this journal is believed to be true and accurate, neither the editors nor the publisher can accept any legal responsibility for any errors or omission that may be made.
  13. More on Instructions to authors can be found at <http://www.famena.fsb.hr/famena.php>
