INSTRUCTIONS FOR REFERENCES

The bibliography (books, papers, Internet, and other electronic sources in the paper / textual quotations) should be Harvard Style-sized.

At the end of the paper, the list of references should refer to particular bibliographic units, bear the ordinal number (in square brackets), and be listed in alphabetic order considering the author's name.

Quotations should be written in brackets, stating the bibliographic unit's ordinal number and the page or stating the author's name of the bibliographic unit, the year of publication, and the pages.

It is preferable to avoid quoting by using footnotes.
