## **GUIDELINES FOR THE REVIEWER IN THE PEER REVIEW PROCESS**

Dear colleague, thank you for reviewing the manuscript submitted to our journal Peristil.

Peristil has been regularly published by The Croatian Society of Art Historians since 1954. Peristil is an annual scientific journal that contains peer-reviewed articles in the field of art history and related social sciences and humanities.

**Your comments should help authors improve their paper by providing your professional expertise. Your review should answer the following questions:**

- Does the paper fit the scope of the journal?
- Is the submission original?
- Does the paper help to expand or further research in this subject area?
- Is the methodology presented in the manuscript and any analysis provided both accurate and properly conducted?
- Are all relevant accompanying data, citations, or references given by the author?

You should base your review on careful analysis and your expertise in the field and existing literature. Please provide clear comments and point out any elements that the author should change in the submitted manuscript.

**If you advise to publish the manuscript, please suggest its category.**

- *Original scientific paper or Preliminary communication*  
- manuscript provides unpublished research results (entire or preliminary)
- *Subject review*  
- manuscript provides original, concise and critical review of a certain field. The author's original contribution regarding the already published texts should be clear.
- *Professional paper*  
- manuscript is helpful to the profession, however it is not a result of an original research

Peristil uses double-blind peer review; the identities of both reviewers and authors are concealed from each other throughout the review.

We kindly ask to send us your review by \_\_\_\_\_. Please let us know whether you can complete the review in the allotted time.
