* Circle the answer to questions 1 and 2

Instructions to reviewers:

Submit your opinions in this form.

In the review, please particularly consider:
   1. Is the title adequate?
2. Is the text written clearly and logically?
3. Is there any unnecessary repetition?
4. Are there mistakes in the processing of the data, image attachments?
5. Was the usual expert terminology used?
6. Was the regular method used?
7. Is the conclusion logical and based on the obtained results?
8. Is the referencing of literature correct?
