4	The introduction contains a clearly stated objectives	1	2	3	4	5
5	A brief overview of general knowledge about the problem at the beginning of the investigation gradually introduces the main issue of the article.	1	2	3	4	5
6	A clear-cut methodology of the research is concisely and systematically listed and defined.	1	2	3	4	5
7	An extensive overview of the issue (supported by up-to-date references and ISI citations) provides evidence and counterevidence of the author's own findings and research results	1	2	3	4	5
8	The article is original and presents an important and suitable contribution to economic theory and practice	1	2	3	4	5
9	The research results are valid with respect to the relevance of the methodology applied, conclusions and recommendations	1	2	3	4	5
10	Conclusions illustrate the research results, findings and recommendations showing what is new and giving suggestions for future research	1	2	3	4	5

**TEXT EVALUATION AND SUITABILITY** (consider each of the following aspects of the article and rate by using circle or bold options from 1 to 5):

11	The article is well-organized and conforms to the format of the Journal	1	2	3	4	5
12	The article's length is appropriate (16-20 A4 size pages)	1	2	3	4	5
13	The article makes an appropriate use of graphs, diagrams and tables	1	2	3	4	5
14	The references used are up-to date and the format of the citations is in Harvard style	1	2	3	4	5
15	The article is written in standard language, free of spelling and grammar mistakes, interesting and relevant for local and international readers	1	2	3	4	5

**FINAL RECOMMENDATION** (mark one of the chosen option):

- |                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Accepted<br><input type="checkbox"/> Conditionally accepted<br><input type="checkbox"/> Rejected |
|---------------------------------------------------------------------------------------------------------------------------|

If judged positively, please recommend the appropriate classification of the article:

- Original scientific paper** is a scientific paper that includes new results based on the research. The information given in the article can be verified by: a) Reproducing experiments and obtain the same/similar results or with tolerable experimental mistakes as estimated by the author himself; b) Repeating the author's observations and judge his analyses; c) Checking the author's analyses and deduction on which the author's analyses are based.
- Preliminary communication** is an article that includes at least one or more pieces of scientific information, but does not include the necessary details to check the scientific cognition.
- Conference paper** is an article that deals with the author's presentation at a conference.
- Review article** is an article that analyzes a special scientific problem already dealt with in published scientific works, but his approach is original and new.
- Professional paper** is an article that deals with specific problems in some professional areas.
