AIMS AND SCOPE:

Bulletin of the International Association for Paleodontology is an interdisciplinary open access online journal inviting and welcoming contributions from anthropology, bioarchaeology, paleodontology and related fields.

The journal publishes papers and develops discussions on a wide range of research problems, e.g. methodology and methods of bioarchaeological, and anthropological research, including field and laboratory study techniques; information technologies; bioarchaeological reconstruction; human evolution; etc.

The journal also publishes results of field investigations conducted by bioarchaeologists, anthropologists, osteologists, and announcements of symposia and professional meetings. It is the goal of this publication to provide authors with an international forum for the presentation of their materials and ideas.

Bulletin of the International Association for Paleodontology features eight types of articles:

- original scientific papers
- case reports
- book reviews
- reviews
- letters to the editor
- meetings reports
- preliminary communications

Bulletin of the International Association for Paleodontology is primarily a scientific journal, but submissions from scholars and students in this field are also encouraged.

Bulletin of the International Association for Paleodontology is published two times a year (spring and autumn).
