Journal of the Croatian Botanical Society

**Croatian title:** Glasnik Hrvatskog botaničkog društva

**Abbreviated title:** Glas. Hrvat. bot. druš.

**Address:** Journal of the Croatian Botanical Society, Svetosimunska cesta 25, HR-10000 Zagreb, Croatia; tel.: 01/239 3835

**Publisher:** Croatian Botanical Society ([www.hbod.hr](http://www.hbod.hr))

**Publishing frequency:** 2 issues annually

**e-ISSN:** 1848-8102

**Editorial Team**

**Editor:**

- **Sandro Bogdanović,** Department of Agricultural Botany, Faculty of Agriculture, University of Zagreb, Croatia, e-mail: sbogdanovic@agr.hr / 2013 -

**Previous Editors:**

- **Toni Nikolić,** Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia, e-mail: toni.nikolic@biol.pmf.hr / 2013 - 2018

**Assistant Editors:**

- Igor Boršić, Ministry of Economy and Sustainable Development, Croatia, e-mail: igor.borsic@mingor.hr / 2013 -
- Ana Vujasić, graphic design and layout, e-mail: ana.vujasic@gmail.com

**Editorial Board:**

- Nenad Jasprica, Institute for Marine and Coastal Research, University of Dubrovnik, Croatia / 2013 -
- Daniel Krstonošić, Faculty of Forestry, University of Zagreb, Croatia / 2019 -
- Ivica Ljubičić, Faculty of Agriculture, University of Zagreb, Croatia / 2019 -
- Toni Nikolić, Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia / 2013 -
- Ivana Rešetnik, Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia / 2019 -
- Ivana Šola, Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia / 2019 -
- Nina Vuković, Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia / 2019 -
- Petar Žutinić, Division of Botany, Department of Biology, Faculty of Science, University of Zagreb, Croatia / 2019 -
Journal of the Croatian Botanical Society does not charge fees for publishing an article (Article processing charges – APC), nor any other fees to authors.

**Copyrights of Journal of the Croatian Botanical Society**

Journal of the Croatian Botanical Society is an Open Access journal. Users are allowed to read, download, copy, redistribute, print, search and link to material, and alter, transform, or build upon the material, or use them for any other lawful purpose as long as they attribute the source in an appropriate manner according to the CC BY licence.

This work is licensed under a [Creative Commons Attribution 4.0 International License](https://creativecommons.org/licenses/by/4.0/).

Authors that publish in Journal of the Croatian Botanical Society retain unrestricted copyright to their work and publishing rights. Work is licensed under the CC BY licence which allows articles to be re-used and re-distributed without restriction, as long as the original work is correctly cited.

**Journal topics**

Vascular plants, mosses, lichens, algae, vegetation, habitats, plant taxonomy, systematics of plants, nomenclature of plants, ecology of plants, applied botany

**Objectives and scope**

Journal of the Croatian Botanical Society is the scientific and professional journal of the Croatian Botanical Society (HBoD).

Journal of the Croatian Botanical Society publishes

A/ contributions in accordance with acceptable topics of the journal in the form of:

1. Original scientific paper
2. Short scientific communication
3. Professional communication (new localities, nomenclature changes of the flora check-list, taxonomic changes of the flora check-list, revised identification keys, reviews, comments, other professional contributions etc.)
4. Short professional communication (new localities, nomenclature changes of the flora check-list, taxonomic changes of the flora check-list, revised identification keys, reviews, comments, other professional contributions etc.)
5. Review paper

B/ contributions to the bibliography on flora and vegetation of Croatia

C/ news and other information related to the work of the Croatian Botanical Society as well as the broader botanical and biological community, and related professions and disciplines.

**Disclaimer**

The Editorial Team considers manuscripts for publication only if:

1. it is original scientific paper of one or more authors in which their own or someone else’s previously published papers or papers that are in the publishing process do not duplicate
2. the manuscript for the publication procedure is submitted only to the Journal of the Croatian Botanical Society, and the process of publication in another journal has not been initiated at the same time
3. the manuscript does not contain abusive, libellous, defamatory, obscene, false or illegal content
Croatian Botanical Society and the Editorial Team will do everything necessary in order to ensure the accuracy of all published information. However, opinions and views published on the pages of the Journal of the Croatian Botanical Society are opinions and views of the authors and not of the Croatian Botanical Society. The accuracy of the contents must be separately evaluated in the primary sources of information. Croatian Botanical Society is not responsible for any losses, activities, claims, actions, demands, costs, fees or any other obligations that arise or may arise directly or indirectly from the use of published content.

History

On the regular annual meeting of the Croatian Botanical Society, held in Zagreb on December 21, 2012 it was decided to launch a new botanical journal – Journal of the Croatian Botanical Society.

Journal of the Croatian Botanical Society is conceived as a journal intended for publishing scientific and professional articles about the biology of plants (including algae), in Croatian or English language, for domestic and foreign botanical community. Geographically it is primarily focused on the territory of the Republic of Croatia and adjacent areas (although not necessarily).

The need for the publication of the Journal of the Croatian Botanical Society stems from changes that occur in the professional and scientific scene in Croatia and the world, which particularly intensely began over last decades. It becomes increasingly difficult to publish professional and scientific contributions on the flora of Croatia in international magazines or magazines with pretensions to international publishing scene. Valuable knowledge of the national flora, especially contributions of botanists outside the system of science and higher education, therefore remains largely unpublished and inaccessible to the public.

On the other hand, the demand for data on the Croatian flora, vegetation, habitats, etc., is growing, as well as the demand for diverse scientific results in the field of phylogeny, floristics, biogeography and taxonomy of Croatian flora. Numerous professional and scientific data are needed for monitoring purposes in the environment, the implementation of protection programs, biodiversity assessment, risk of extinction assessment, planning and implementation of sustainable development with regard to biodiversity, monitoring of invasive species, knowledge on useful plants, for the monitoring of the phenomenon of endemism, impacts of biotic factors on flora and other related knowledge.

The intention of the Journal is to fill the void that was created between the growing demand and the difficulty of appropriate publishing of professional and scientific data about the flora. The intention is to ensure quick and easy publishing of smaller or larger, professional and scientific contributions in the Journal, with the dynamics adapted to the real needs of botanical community and related fields in an easily accessible electronic form. Croatian Botanical Society, as a professional association, ensures the technical and scientific quality and reliability of data.

Furthermore, the Journal serves as a means of dispersion of relevant information of the widest range to botanical and wider community in a way that has not yet been available. Such data and information include e. g. nomenclatural and taxonomic changes of the Check-list of Croatian flora, results of field observations on areas on which no data exist or those data are sparse or old, new findings of rare or threatened species, contributions to the bibliography of Croatian flora, as well as extensive professional and scientific contributions. The Journal would be a place for information and news from regular activities of the Croatian Botanical Society, information about new papers and publications, support for the implementation of symposia, workshops and conferences, popular-professional lectures, etc.

About Croatian Botanical Society

Croatian Botanical Society (HBoD) was founded in Zagrebu, on November 18, 2002. For the membership in the Croatian Botanical Society contact Secretariat or look for more information on the website www.hbod.hr.
