Print

Sveučilišna tiskara d.o.o., Zagreb

Design

Modulor Studio

Note:

As of the first issue of GRAĐEVINAR for 2012, all papers are printed in Croatian language as usual, but the online edition of the journal feature full versions of all papers in English language as well. In this way, GRAĐEVINAR will help the authors to present results of their scientific research and their valuable ideas and experience to the scientific and professional community, not only in areas where Croatian language is in use, but also throughout the entire international scientific and professional community. As of January 2012, the double blind review will be applied for review of papers received by the journal, and so the authors will not know who the reviewers are and, conversely, the reviewers will not know who the authors of the papers they are reviewing are.

Journal cover:
60 anniversary of
Croatian Association of Civil Engineers
