Zagreb 2023**Description**

The Croatian Medical Association started publishing its professional journal *Liječnički Vjesnik* in 1877. *Liječnički Vjesnik* is one of only about a hundred international journals that were coming out in the late 19<sup>th</sup> century, maintained continuity during the 20<sup>th</sup> century, and then entered the 21<sup>st</sup> century. It is also the oldest Croatian medical journal and regularly captures all important achievements, professional and trade events. Editorials, professional and scientific papers, review articles, patient reviews, medications and methods, preliminary scientific and expert papers, reviews, letters to the editor, book reviews, literature papers and other contributions are published in the journal *Liječnički Vjesnik*. Through publishing original scientific and professional papers by local authors, *Liječnički Vjesnik* has contributed to the overall health care improvement. All manuscripts are subjected to a review process.

All articles should be addressed to the Croatian Medical Association, Office of *Liječnički Vjesnik*, Zagreb, Šubićeva 9, tel. [01] 46-93-300, e-mail: lijecnicki-vjesnik@hlz.hr.

## Sto pedeset godina za stalež i struku

i specifične simbolističke tipologije naglašava dihotomiju života i smrti, zdravlja i bolesti.

Kontekst različitih umjetničkih poetika i stilskih formi od alegorije nastavlja se nagovještajem novih mijena u prvoj polovici dvadesetog stoljeća djelom *Boem* Miroslava Kraljevića [5/6] prema avangardi i prati historiografski realitet aktivnosti staleške udruge: noseći obilježja i mijene, pojedine epohe slijedom odabranih djela *Pelivanima* Đure Sederera [7/8] lirskom apstrakcijom Ede Murtića *Ofenziva* [broj 9/10] i Kniferovim geometrijskom apstrakcijom *Kompozicija III*, zrcaleći pozitivističko-modernistički pokret u dodiru znanosti i umjetnosti.

U preplitanju mijena umjetnosti ogleđa se simbolički tkanje duštva unutar kojega *Hrvatski liječnički zbor* tijekom 150 godina svog opstanka gradi medicinu kao trajno razvijajuću praksu i umjetnost liječenja.
