

Reviewer guidance

Journal of Bioanthropology is a multi and interdisciplinary scientific journal that focuses on scientific research in the field of biological anthropology, bioarchaeology, biomechanics, biomedicine, ergonomics, forensics, genetics, human evolution, molecular anthropology, public health and related subjects. The official language of the Journal is English.

Peer-review policy

Journal of Bioanthropology operates a double-blind peer-review system, where the reviewers do not know the names or affiliations of the authors and the reviewer reports provided to the authors are anonymous. Submitted manuscripts will generally be reviewed by two to three experts who will be asked to evaluate whether the manuscript is scientifically sound and coherent, whether it duplicates already published work, and whether or not the manuscript is sufficiently clear for publication. Reviewers will also be asked to indicate how interesting and significant the research is. The Editors will reach a decision based on these reports and, where necessary, they will consult with members of the Editorial Board.

Example of Review sheet:

Questions for reviewers:

Is the topic appropriate for publication in the Journal of Bioanthropology (Y/N) _____

Is the paper title appropriate (Y/N) _____

Is the manuscript prepared following the format noted in the instruction for authors (Y/N) _____

Suggested classification of the manuscript (original scientific paper, brief communication, review paper) _____

Are the tables/charts/figures appropriate for the topic of the paper (Y/N) _____

Reviewer's comments to the editor (these comments will not be given to the authors of the paper):

Reviewer's comments to the author(s):

(additional specific comments can be added in the PDF document of the manuscript in the form of comments)

Reviewer's decision:

Please mark the following with X:

Accept the manuscript in its current form _____

Accept upon major revision _____

Accept upon minor revision _____

Reject _____
