Kategoriziraju se kao stručni članak, izlaganje na znanstvenom skupu, pregledni rad, prethodno priopćenje i izvorni znanstveni rad (dužine do jednog autorskog arka ili 16 stranica s proredom). Nerecenzirani prilozi su informacije sa znanstvenih skupova, prikazi knjiga i časopisa, novih propisa, organizacijskih promjena i sl. (do 4 stranice s proredom).

Ako predani rad nije preveden na engleski jezik, autoru će se ponuditi usluga prijevoda o njegovom trošku, a prema tarifi prevoditelja. U sažetku se mora ukratko izložiti cilj, metodologija, osnovni pojmovi, tvrdnje rada i znanstveni doprinos. Nakon sažetka valja svakako navesti ključne riječi.
7. Tablice, dijagrami, slike i karte moraju biti samorazumljive (s rednim brojem, naslovom, izvorom, i prema potrebi, s tumačem simbola). Formule valja pisati što čitljivije i pritom upotrebljavati standardne izraze.
8. U popisu literature na kraju rada valja navesti bibliografske jedinice s rednim brojem (u uglatoj zagradi) i redosljedom prema abecedi prezimena autora. Citirati valja u zagradi navođenjem rednog broja bibliografske jedinice i stranice, ili navođenjem prezimena autora jedinice, godinu izdanja i stranice. Valja izbjegavati citiranje pomoću fusnota.
